<b>AS/NZS 4438: LEVEL 6</b> AFRDI CERTIFIED	AUSTRALIAN / NZ STANDARD FOR COMPUTER CHAIRS
<b>160KG CERTIFIED</b> AFRDI RATED LOAD	AFRDI 142 CERTIFIED FOR 160KG MULTI-SHIFT

## WARRANTY

**Control is warrantied for 10 years including in multi-shift and 24-hour situations.**

**The recommended maximum user weight is 160kg.**

Eden Office accept full responsibility for faulty workmanship and/or mechanical failure. Chair parts will be repaired or replaced free of charge within this period.

Repairs undertaken by any other party, or adjustment or tampering with mechanical parts, could void the warranty.

## SEATING POSTURE

We recommend computer users adopt an open-angle sitting position, with knees slightly lower than hips.

Always sit near the back of your seat.

Adjust the tilt tension so that when the synchro tilt is released the chair supports your weight in an upright seated position but allows you to lean back easily if you choose.

Sit close to your workstation.

Your feet should be flat on the floor or on a footrest.

Keyboarding and mouse operation should be achieved comfortably without stretching.

## CHAIR CARE

The **mechanical parts** of your Control chair require little or no maintenance.

The **castors** should be kept clear of threads or other objects that would inhibit their movement.

The **gaslift** contains pressurised gas and should not be tampered with in any way.

Vacuum regularly. Protect from direct sunlight. Professional cleaning is recommended.

**For spot cleaning:** Wipe clean with a damp cloth, or shampoo using upholstery shampoo. A mild citrus cleaner may also be used.
